

SUSTAINABLE SOLUTIONS FOR HIGH-PERFORMANCE BUILDINGS

MULTIRESIDENTIAL • COMMERCIAL • INSTITUTIONAL

Enviro-Experts supports owners and managers in improving building energy performance, reducing costs and decarbonizing their assets.

OUR BUILDING SERVICES

**1. ENERGY AUDITS AND
DIAGNOSTICS
(ASHRAE I, II AND III)**

Energy-use analysis and
prioritization of efficiency
measures

**7. ENERGY MANAGEMENT
SYSTEM – ISO 50001**

Implementation, energy review
and continuous improvement

**2. ENERGY MODELING,
SIMULATION AND
APH SELECT / CMHC**

eQUEST, HOT2000, RETScreen
and performance scenarios

**8. BENCHMARKING,
CERTIFICATIONS AND
ENERGY REPORTING**

ENERGY STAR, LEED, BOMA BEST
and regulatory compliance

**3. HVAC, VENTILATION AND
DHW SYSTEM PERFORMANCE**

Optimization, modernization,
comfort and indoor air quality

**9. COMMISSIONING AND
RETROCOMMISSIONING**

Commissioning, functional
optimization and deficiency
correction

**4. DECARBONIZATION AND
GHG REDUCTION**

Carbon assessments, electrification
and transition roadmaps

**10. BAS, AI, IoT AND
ADVANCED CONTROL**

Automation, trend analysis
and predictive maintenance

**5. RENEWABLE ENERGY,
STORAGE AND MICROGRIDS**

Solar, geothermal, biomass and
energy integration

**11. GRANTS, FEASIBILITY AND
TECHNO-ECONOMIC ANALYSES**

Eligibility, application support,
ROI and decision support

**6. ENERGY MONITORING AND
CONTINUOUS IMPROVEMENT**

Sub-metering, dashboards, EnPIs,
M&V and drift detection

12. ENERGY R&D AND INNOVATION

Development, prototyping and
validation of advanced solutions
